Subject: RE: **2024 Annual Review of Ellipse Access**

I have reviewed Ellipse Security by SOX Program Nam and Global Profile. There were no changes to the prior year and all access appears to be appropriate.
I reviewed the Class Method Security tab and did not see anything that I believe needs any further attention.
I did not do a comparison on the other files, but did a spot check.
I discussed the review with Raja as well.
Along with the fact that Tony and I review Ellipse User Request. I am comfortable with the reports.
Our SOD review also helps to mitigate any issues with Ellipse program security.

Let me know if you have any questions.

Merry Christmas.

Thanks,
Greg

Subject: 2024 Annual Review of Ellipse Access

Greg,
Would you work with Raja to perform the annual review of Ellipse access levels. Below and attached are examples from last year (INC0076541).
